MEMORANDUM FOR: Deputy Director for Administration

25X1A

FROM : [REDACTED]
Chief, Audit Staff, O/IG

SUBJECT : Annual Plan for Audits Within the
Directorate for Administration

This memorandum is to advise you of the audits planned in your directorate for the transitional quarter and Fiscal Year 1977. Attachment A lists all audits by DDA office. Certain audits are performed on a two year cycle and are shown as "not scheduled." Annual audits scheduled during the transitional quarter will also be done during the last quarter of Fiscal Year 1977 and are so noted on the attachment. Attachment B lists certain activities on which special audits will be performed when we have the manpower. If you feel that certain activities listed on Attachment B require immediate attention, we will consider a revision of our priorities.

The Office of Communications (OC) audit is scheduled in October 1976. In addition to the financial compliance review, we plan to review the management of equipment and parts for the message network and the covert operations. These areas were identified in the 1975 survey of OC for further audit emphasis. An audit of Supply Division is planned concurrently so as to improve audit coverage on supply relationships.

The Office of Finance audit, which was postponed last year at their request, will be started in October/November 1976. Our primary emphasis will be to confirm that the new General Accounting System (GAS) is producing results as intended by the design. Since the Audit Staff's ADP Group has been monitoring the development of GAS, coverage under this audit will concentrate on results rather than the structure of the system.

We are planning to expand the scope of audit beyond financial compliance for the Offices of Personnel and Medical Services. The audit of Personnel will be organized

to examine areas not covered in the Inspection Staff review. We will review action taken on the recommendations of the Inspection Staff. The scope of audit will also depend on the status of the new Manpower Control System. A survey of Medical Services will be completed in coordination with the DDA and Inspector General before that scope of audit is established.

An Agency-wide audit of Component Conducted Training is scheduled for November 1976. This audit results from the review of the Office of Training. While the audit will have little effect on OTR directly, we are coordinating our plans for the audit with officials from that office.

Our ADP Audit Group will continue to monitor the development of the General Accounting System, the Manpower Control System, the Inventory Control System, and the Credit Union System.
